ABOUT US

Plumb Time Plumbers, established in 2010 by Director Cade Smith, is a leading provider of plumbing and general construction services, renowned for its dedication to quality, innovation, and customer satisfaction.

With over 20 years of experience as a licensed and qualified plumber, Cade Smith has guided the company through 15 years of continuous growth, transforming each project into an opportunity for learning, innovation, and improvement. This commitment has shaped Plumb Time Plumbers into a refined and effective business, delivering top-tier services tailored to meet diverse client needs across residential, commercial, and industrial sectors.

In line with our growth, we transitioned into Plumb Time Plumbers (Pty) Ltd and proudly hold a Level 2 BBBEE rating.

OUR

MISSION | VISION

Mission

The company's mission is to provide exceptional plumbing and construction solutions while championing youth development, education, and consistent safety training to ensure all employees have access to a safe workplace, recognizing that the future of global sanitation and infrastructure depends on skilled and secure professionals who maintain and innovate critical systems.

Vision

To lead the plumbing and construction industries as a beacon of innovation, safety, and sustainability, where empowered youth drive the preservation and advancement of essential sanitation and building knowledge, ensuring a healthier, more resilient world for generations to come through unparalleled customer satisfaction and expert craftsmanship.

OUR **VALUES**

Excellence

Delivering superior service at all times.

Integrity

Acting honestly and ethically in every engagement.

Responsiveness

Offering 24/7 service with fast turnarounds.

Safety

Prioritizing the well-being of our clients and employees.

Innovation

Leveraging cutting-edge tools and solutions.

Teamwork

Valuing the strength of our collective experience.

Community

Making a positive social and environmental impact.

OUR SERVICES | PLUMBING

Emergency Plumbing:

Round-the-clock service for urgent issues such as leaks, blockages, and burst pipes.

Leak Detection:

Employing gas, thermal, and acoustic methods for precise identification of hidden leaks.

Blocked Drain Clearing:

Utilizing high-pressure hydro-jetting and drain snakes to clear clogs caused by grease, debris, or roots.

Geyser Repair and Replacement:

Diagnosing and fixing geyser issues or installing energy-efficient replacements.

Pump Repairs & Replacements:

Swiftly addressing leaks to prevent water loss and property damage.

CCTV Drain Camera Inspection and Plotting:

Utilizing advanced CCTV cameras to inspect and diagnose drain conditions, identifying blockages, cracks, or structural issues, and plotting precise locations for targeted repairs.

Underground Service Mapping:

Using state-of-the-art acoustic, ultrasonic, and tracer technologies for accurate mapping, enabling efficient and minimally invasive repairs.

Installation of Back-Up Water Systems:

Designing and installing reliable back-up water systems, such as tanks and pumps, to ensure uninterrupted water supply during outages or low-pressure scenarios.

Sewer Pump Lifting Stations:

Installing and maintaining sewer pump lifting stations to efficiently transport wastewater from lower to higher elevations, ensuring effective sewage management for residential, commercial, and industrial properties.

General Plumbing Repairs:

Handling leaks, low water pressure, and fixture maintenance with precision and care.

Heat Pump Repairs & Replacement:

Servicing and replacing heat pump systems to ensure efficient water heating and energy savings.

Solar Geyser Repairs & Replacement:

Maintaining and upgrading solar geyser systems to optimise eco-friendly hot water solutions.

OUR SERVICES | CONSTRUCTION

Ceiling Installation:

Installing durable and aesthetically pleasing ceilings for residential and commercial spaces.

Flooring Installation:

Providing high-quality flooring solutions, including various materials to suit client preferences.

Painting:

Offering professional interior and exterior painting services for a polished finish.

Cupboard Installation:

Designing and installing custom or standard cupboards for functional and stylish storage solutions.

Plastering:

Applying plaster to walls and surfaces for a smooth, durable base.

Skim Plaster:

Providing fine skim plastering for a refined, high-quality wall finish.

Paving:

Installing durable and visually appealing paving for driveways, walkways, and outdoor areas.

Brick Work:

Constructing strong and precise brick structures for walls, foundations, and other features.

Tiling:

Delivering expert tiling services for floors, walls, and other surfaces, ensuring durability and aesthetic appeal.

WHY CHOOSE

US

Plumb Time Plumbers operates a refined and adaptable business model, driven by a culture of continuous improvement. Each project enhances the company's expertise, allowing it to tackle new challenges and provide an exceptional customer experience. Investment in modern tools, such as CCTV drain cameras, acoustic, ultrasonic, and tracer technologies for plumbing, back-up water system equipment, sewer pump lifting stations, and high-quality construction tools, ensures precise and minimally invasive solutions. A focus on ongoing training, including consistent safety training, maintains a skilled, safe, and forward-thinking workforce.

Recognizing sanitation and infrastructure as foundational to a healthier world, Plumb Time Plumbers is dedicated to preserving and advancing the knowledge required to maintain critical systems. By mentoring young plumbers and construction professionals, providing consistent safety training to ensure a secure workplace, and embracing innovative techniques, the company ensures a sustainable future for the industry and the communities it serves.

MEET OUR TEAM

Cade Smith - Director

Cade Smith, with over 20 years of industry experience, drives the company's vision of excellence, safety, and youth empowerment.

Cindy Smith - General Manager

Cindy Smith oversees administrative operations, ensuring seamless project coordination and exceptional client communication.

MEET OUR TEAM

Plumb Time Plumbers employs six operational teams, each with 2 to 3 skilled staff members, totaling up to 14 field personnel. These teams are trained to handle diverse plumbing and construction challenges, utilizing advanced tools and techniques, including CCTV drain inspection systems, back-up water system installations, and sewer pump lifting stations, to deliver high-quality results. Ongoing training, including consistent safety training, ensures all employees have access to a safe workplace and remain at the forefront of industry advancements, aligning with the company's commitment to preserving sanitation and construction knowledge through youth development.

CORE

STRENGTHS

Comprehensive Expertise:

Extensive knowledge across plumbing and construction sectors, enabling tailored solutions for diverse projects.

Customer-Centric Approach:

Prioritizing client satisfaction, meeting deadlines, and exceeding expectations.

Youth Development and Safety:

Actively supporting training and education to empower the next generation of plumbers and construction professionals while ensuring consistent safety training for a secure workplace.

Quality and Productivity:

Delivering exceptional workmanship with advanced technologies, such as CCTV drain inspection, plotting, back-up water systems, and sewer pump lifting stations, for efficient, sustainable results.

Sanitation and Infrastructure

Advocacy:

Committed to preserving and advancing knowledge critical to maintaining global sanitation and building infrastructure.

Problem-Solving Abilities:

Providing tailored solutions to pre-existing problems with minimal disruption, leveraging innovative techniques and expertise to address unique challenges effectively.

Strategic Planning:

Ensuring deadlines are met with optimal outcomes through meticulous project management and proactive coordination.

OUR ACHIEVEMENTS

- **Institute of Plumbing South Africa (IOPSA)
